BRAND GUIDELINE

BUILDING A STRONG AND CONSISTENT BRAND IDENTITY

VISION & MISSION

VISION

"To help professionals and entrepreneurs innovate, create, and solve the problems that matter most — one less task, one bigger idea, one automatic workflow at a time."

BUSINESS OVERVIEW

Pathfinder AI Agency helps service-based businesses stop losing clients and revenue to slow response times — through AI automations that reply, follow up, and book on their behalf.

Whether it's a solo health practitioner missing new client inquiries, a real estate agent too busy to follow up on leads, or a renovation company whose quotes go cold — we identify exactly where the revenue is slipping through the cracks, then build the automation that catches it.

Depending on what works best for the client, we either implement the solution for them or mentor them through it so they can start applying AI to their own context.

The result: no more missed clients, no more manual follow-up, and time back for the work that actually matters.

COLOR PALETTE

The basic colours Minsk and Chosen Blue are intended for use in logo and all visual communication materials. They also serve to highlight parts of the communication and improve readability and playfulness.

Depending on the type of material, you can opt for a light or dark mod. For the dark mode, Chosen Blue is used in the background and for the light mod is Heavenly Blue.

Logo

Our Symbol. Our symbol is our mark of authenticity. It's unique and striking and can increasingly stand alone with it's ever-growing brand awareness.

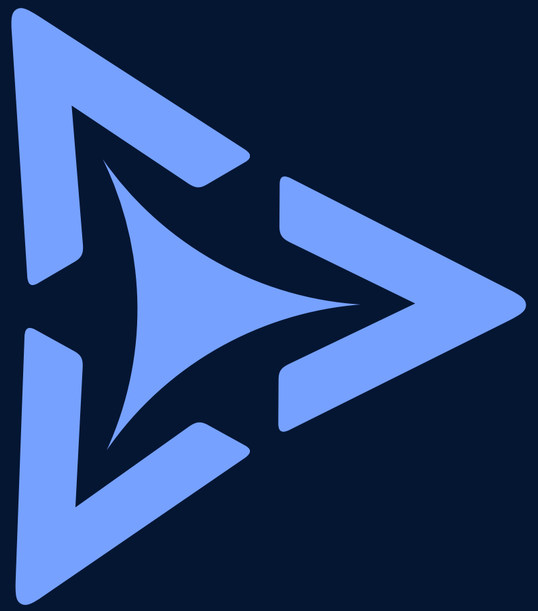

Variants. We have three use cases for our symbol.

Variants. We have three use cases for our symbol.

Primary variants

We recommend using the logo on a dark or light background. In the case of a photograph, it is essential to keep the logo sufficiently legible in relation to the background image.

WORDMARK VARIANTS

Our wordmark should be used in communications, or when speaking to audiences outside our immediate ecosystem- basically any situation with less instant brand recognition. it's the more formal symbol of our brand.

TYPEFACE

Our main font is Manrope (Designed by Mikhail Sharandal). We use it wherever possible. Manrope is a family of sans-serif fonts. It creates an unmistakable expression and works functionally as typography on digital platforms and in print materials.

If the situation does not allow us to use the Manrope font, you can use any system sans-serif fonts. We recommend Arial or Helvetica.

What knowledge and skills you should have:

We stand behind our products, so we have decided to offer our customers more and have extended the warranty to 15 years on selected products.

Gradients

We recommend using gradients as a background to help the user flow and grab the user's attention. The top of the gradients has to be the brightest colour to guide the user through the information in the right order.
